

Attorneys now have the ability to see within the attorney login if the required documentation for cases has been received by JAC. This information may be useful for indigent for costs cases to give to court reporters or other vendors who request verification prior to providing services on a case. Please note that the reference to IFC and court-appointed documentation provided on this website is limited to what was sent and received beginning 8/1/08. Information prior to that may be available.

In order to access the attorney login, click on "Login" or "My Access." If you are not currently registered, click on "Click Here to Register," "Attorney Registration" and follow the directions.

You may contact the Help Desk for assistance regarding login registration.
