

TLC for Your Car During National Car Care Month

Give your car some TLC during National Car Care Month. As we head into summer months, remember that heavy humidity can impact vehicle corrosion, while the hot sun can lead to overheating of the air conditioning unit if not properly maintained. And if you live near the ocean, the salty air can start to affect the paint and contribute to other damage. This month, take time to give your car the attention it deserves in order to avoid unnecessary insurance claims that may raise your premiums.

National Car Care Month may also be the perfect time to save money through the Auto Insurance Program. You can compare your current policy with coverage, prices, and individual discounts from some of the nation's top auto insurance companies.¹

As an employee of the State of Florida, you are eligible for a voluntary benefits program that could save you time and money on your car insurance.
